### DISCOVER CAREER PATHS:

Find careers by match or subject and learn where you are likely to find meaning and fulfillment.

### DEEPEN UNDERSTANDING:

Learn about the types of tasks, knowledge, skills, and abilities required to be successful in individual careers

### PLAN THEIR FUTURE:

Watch videos, view industry outlook for matching jobs, and location-based salary information.

### CONNECT TO OPPORTUNITIES:

View local job postings, post-secondary education information, and training options based on your matches.

# PAM for Schools

Guide your students to a life with purpose and meaning and help students gain higher confidence in their ability to communicate their goals, deepen their understanding of careers that fit them, and eliminate stress of the planning process.

## With PAM your school can:

**Easily view student results** through the Counselor Dashboard and downloadable reports

**Mentor and communicate with students** via two-way messaging feature

**Use research-based conversation prompts** to promote meaningful career planning conversations with students.

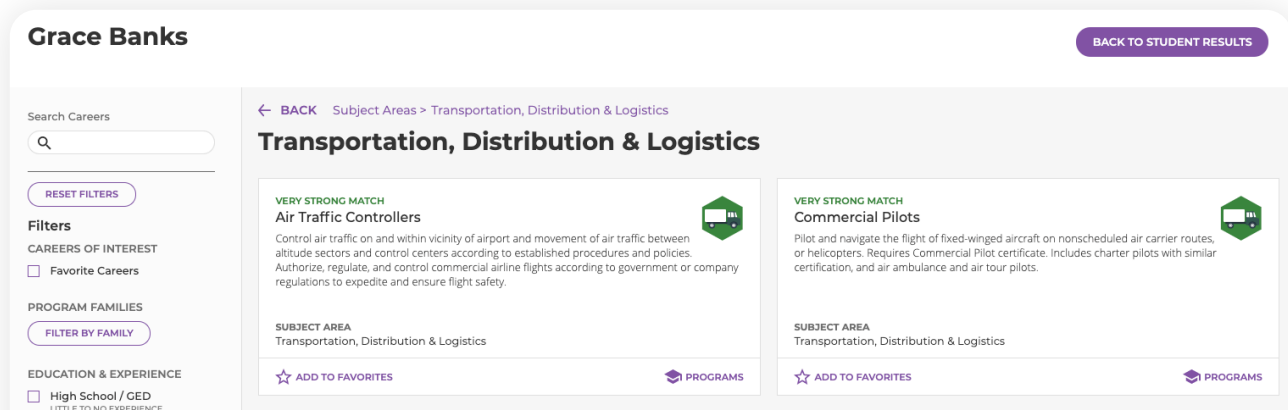

**Empower students to gain self-awareness,** better communicate their goals, and understand the career paths they are most suited for and interested in pursuing.

“ The length of the surveys were perfect, with each one not taking too long and being catered to a specific topic. Afterward, the survey gave me accurate results, because it gave me careers in my intended major, multimedia, which made me excited! I also learned about other branches of careers in my intended field and various other career paths that I never would have thought of! For example, I had no idea that there was a job in construction for graphic designers!”

**Theo Drescher (18) Battlefield High School**

“ I finished up the assessments, and to be completely honest with you, I was pleasantly surprised! I went into this kinda expecting it to go like all the boring tests and goal setting activities we would do with school counselors, but it didn't feel like that at all. It was very different from what I expected, in a good way! It kinda felt more like a personality quiz, and I was actively excited in doing it. It was really interesting to do and think about. I genuinely think that this is a good tool and it works pretty well. Like, the answers I got felt like me, you know? It just made sense.”

**Samiha Hamzayeva (15), Potomac Falls High School**

The screenshot shows a user interface for Grace Banks. At the top right, there is a button labeled 'BACK TO STUDENT RESULTS'. Below this, the user is viewing search results for 'Transportation, Distribution & Logistics'. The interface includes a search bar, a 'RESET FILTERS' button, and a 'FILTER BY FAMILY' button. Two search results are displayed, both marked as 'VERY STRONG MATCH' with a green checkmark icon. The first result is for 'Air Traffic Controllers', with a description: 'Control air traffic on and within vicinity of airport and movement of air traffic between altitude sectors and control centers according to established procedures and policies. Authorize, regulate, and control commercial airline flights according to government or company regulations to expedite and ensure flight safety.' The second result is for 'Commercial Pilots', with a description: 'Pilot and navigate the flight of fixed-winged aircraft on nonscheduled air carrier routes, or helicopters. Requires Commercial Pilot certificate. Includes charter pilots with similar certification, and air ambulance and air tour pilots.' Both results include a 'SUBJECT AREA' of 'Transportation, Distribution & Logistics' and buttons for 'ADD TO FAVORITES' and 'PROGRAMS'.
